YOUR SUPPORT WILL HELP!

By walking in the APS Walkathon or supporting a walker, you become a partner in providing positive answers to unplanned pregnancies faced by many teens, women & men in our community.

APS began providing help, counsel and resources in 1984 to those facing pregnancy-related decisions. Our desire is to meet each woman who comes through our doors with the message that her life and the life she carries is of great worth; and to reach the next generation with support and counsel to help them stand against the adverse pressures of our culture. **And with your help, WE CAN!**

Your support through this special event will make it possible to continue the services, support and hope that can make the difference in lives, both unborn and born.

All services provided by APS are provided in confidence free of charge and are as follows:

- Pregnancy testing & options counseling
- Support and help with relationship issues
- Adoption information & consultation
- Abortion recovery & pregnancy-related grief counseling
- Parenting, prenatal & childbirth classes
- *Gathering Hope* — an educational program that helps equip and prepare young women for life and the work world
- Maternity and baby clothes and accessories
- Telephone help line for those who need to reach us day or night
